### **DETAILED ACTION**

The following action is in response to the amendment filed for application 10/617,045 on January 18, 2006.

#### ***Allowable Subject Matter***

Claims 1, and 4-6 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the driving system as claimed, and particularly including a forward-drive/reverse-drive switching device adapted to switch between forward drive and reverse drive; a speed changing mechanism connected in series with the forward-drive/reverse-drive switching device between the driving power source and a continuously variable transmission, and including the remaining structure of claim 1. The present invention also particularly includes a speed ratio at which the speed changing mechanism changes the speed of rotation of the driving power source is determined so that a maximum torque applied from a diesel engine to a CVT is substantially equal to or smaller than a maximum torque applied from a gasoline engine producing the same power as the diesel engine, and including the remaining structure and controls of claims 4 and 6, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
